My mission in LMHI

First and foremost, I would like to thank to all LMHI IC delegates in Quito 2013 Annual Meeting, voting for me, thus electing me to this responsible function and duty. It is said: "From those who had received too much, it is expected too much." I have been receiving many precious gifts through the unique science and art of homeopathy during the last 16 years, now it is my turn to share back to homeopathic global community little bit of its treasure, first and foremost, the gift of love and thankfulness for our beloved homeopathic medicine, medicine which firmly stands on the unshakable foundation of the principles founded by Dr. Hahnemann. Let my heart always be inspired with the feeling of humility in front of the huge collective work already done by generations of dedicated homeopathic doctors and officers, brave knights and knightesses and humble workers from past and present time, who served for LMHI and other esteemed homeopathic medical societies and institutions worldwide, committed to preservation and fostering of the homeopathy worldwide. I believe for continuation, with the similar dedication and determination, to put into practice all my professional, organisational and communicational skills needed for successful fulfilment of the role of LMHI Prime General Secretary during the 2013-2016 mandate, thus being responsible for the:

- Administration of the association and for the preparation and the execution of the Meetings
- Making draft the Minutes of the Meetings and forwarding copies of the Minutes to all National Vice-Presidents
- Entertaining relations with the national institutional members

Yours sincerely,
Jelka Milić
