

HOMEOPATHY CAN ONLY BE PRESCRIBED BY DOCTORS IN TURKEY

Report by Dr. Jose Matur, LMHI President (Mexico)

The International Homeopathy Day 2012, held in the city of Izmir (Turkey), can be considered a true example of organization, commitment and dedication by the Turkish Medical Association that is an institutional member of the LMHI.

The significance of this celebration is that the Turkish health authorities are legalizing complementary medicine, and – within Homeopathic Medicine – one of the most important achievements of our colleagues in Turkey is that any non-medical treatment to any type shall be punished by the authorities.

The legislation of Homeopathic Medicine is under our medicine doctors who know and have come to understand well that homeopathic medicine should only be practiced by Doctors

It is proper to congratulate Drs Levant Buda, Altunay Agaoglu, and Dr Arpacı who poured their efforts in organizing this event

Importantly, what is achieved: This is one of the main conclusions

The Ministry of Health representative, Dr. Samed, knew practically everything about the regulation of Homeopathy, Department of CAM, the most important is that you spoke little, practically he mentioned that about 36 are regulating alternative therapies and with them This homeopathic medicine, which is mentioned, that for them the authorities should only be practiced by Doctors, and from whom exercised their regulation without doctor or have the relevant studies will be subject to judgment, which I really appreciate important for the defense of the practice of Homeopathic Medicine. Practically no wonder we are much, just some comments were made, but everything was really studied, I was impressed to see how the Doctors of Turkey had all the work ahead.

The Celebration of the International Homeopathy Day 2012 in Turkey started in the afternoon of April 27 with the following speakers:

Introduction: Dr Altunay, Presentation of Dr. Levant, Homeopathic Principles and clinical Case Dr. Renzo, Homeopathy in the World Dr. Matuk, Homeopathy in Europe Dr. Ton Nicolai, and a veterinarian and a medical oncologist, is counted with the assistance of over 100 people, attended the press, Television, and others, after the conference they offered a cocktail with an extraordinary panorama of the City of Izmir.

I can conclude that it was a success that we have to thank the Doctors of Turkey, their attention, do not miss a beat. The most important thing I achieved, what the authorities wanted. Homeopathic Medicine will only be exercised only by doctors.
